TURNING 40
never looked or felt
SO GOOD.

CELEBRATING 40 YEARS OF
HAND CRAFTSMANSHIP.

HISTORY IN THE MAKING

This year marks 40 incredible years for SAS, and we couldn't be more excited. Our story starts in 1976 with two shoemakers, Terry Armstrong and Lew Hayden, and their vision of how genuine leather shoes should be made. Using only the finest leather and quality materials, Terry and Lew's reputation for quality craftsmanship grew quickly from word of mouth. Today, SAS produces dozens of styles and colors of the most comfortable shoes in the world.

Terry Armstrong

Lew Hayden

The growth and continued success of SAS come directly from all the dedicated employees who work to create our product, our amazing dealers who bring the SAS name and quality to our customers, and of course, the customers who make our dream possible. SAS wants to take this opportunity to say thank you to everyone who made these 40 years of growth possible. From our skilled shoemakers to our loyal account representatives, our continued success comes from you and every member of the SAS family. That's why we at SAS are proud of our past and excited for our future.

SINCE 1976

KEY WITH DETAILS

Please Note: Shoes marked with the symbols below apply to that shoe style only, not every shoe on the page.

- m

Medicare Approved: See your doctor for details and qualifications.
- 

Slip-Resistant: Features the SAS X-tra Grip Sole™, using the Brungraber Mark II testing for wet and oily conditions. The unique hexagon-shape rubber outsole pattern helps to channel floor spills to maintain effective contact with floor surfaces and is non-marking.
- i

Italian Crafted: When we decided to create an elegant women’s shoe that best exemplifies our standards of quality, we looked to the hills of Tuscany, Italy. By word of mouth, our team discovered a small family-owned company with a heritage and love of crafting fine leather shoes. Our plan was to learn the processes for making a quality dress shoe and bring home the experience to our Master Shoemakers. Working with these artisans hand in hand, we developed a unique approach that embraces superb craftsmanship and the extraordinary comfort, design, and engineering of SAS. Any particular style or color marked with this symbol in this catalog may be manufactured in the U.S.A., Italy, or both locations.
- S

S-Motion Technology™: Built into our exclusive SuperSoft® lightweight sole, this new technology supports the three part walking motion, starting first at the heel strike, across the mid-stance (arch), and through the inside ball, forward to the final toe push off. S-Motion Technology supports natural stride, making way for improved performance walking.
- S

Models with the S icon by their image are SAS employees from our factory and office in San Antonio, Texas. We’re proud to showcase some of the men and women who work tirelessly to give you ultimate comfort.

CUSTOMER SUPPORT

If you have any questions or concerns related to a product, please contact us by phone at **1-877-SAS-SHOE (1-877-727-7463)**. Or visit our website at **SASshoes.com**, where you’ll find the latest styles and colors.

WHERE *comfort* BEGINS

Take a moment to think about the shoes you're wearing right now. You probably haven't given much thought to where they were before they landed on your feet. If you happen to be wearing an SAS shoe, that one pair has had a whole host of experiences prior to leaving the factory. In fact, just one pair of our shoes can go through up to 100 different steps and assurances before they are declared SAS quality.

SAS has two operating factories: our original, established in 1976, in San Antonio, Texas, and our Del Rio, Texas factory that opened its doors in 1985. The company sticks firmly to our founders' vision of handcrafted, genuine leather shoes, proudly made here in the U.S.A.

In order to create SAS shoes, the ones that have come to be known as the "shoes you don't want to take off at the end of the day," there are 14 categories of operations that take place in our factories, like leather selection, die-making, cutting, lasting, and more. Within those categories, approximately 80 different skilled pairs of hands are carefully constructing and inspecting each shoe to make sure the SAS shoes you choose are the best made pair of footwear in your closet.

SAS owns and operates two factories in Texas, our original factory in San Antonio, which was established in 1976, and a factory in Del Rio that opened its doors in 1985. We also own and operate a sister plant in Acuna, Mexico, which is directly across the border from Del Rio, Texas. In Acuna, specific operations, such as hand sewing and stitching, take place on some of our styles. We also work hand in hand with a multi-generational family owned Italian shoe manufacturer to design and engineer our line of pumps and other dress shoes.

SIZE RUN A

FOOT BEDS

COOLSTEP™

Our SAS CoolSTEP O²™ foot bed uses an anti-bacterial foam material that aids in wicking moisture from the foot's surface. This dual-density CoolSTEP O²™ foam is engineered to be firmer, more supportive, and softer under the forepart of your foot for cushioning. The O² airflow cover on this foam helps in reducing friction that can cause heat buildup underfoot. The heel is cupped for a cradle-fit. Our SAS CoolSTEP O²™ foot bed gives a cooler, more stable, comfortable walking experience.

- SAS Air Flow™ technology
- SAS SoftArch™ design
- Anti-fungal treatment
- Anti-bacterial treatment
- Dual-density material

STEP PLUS™

Every day comfort insole that supports the arch, cradles the heel, and helps eliminate overall foot pain. Made with Everbounce™, a material used to enhance shock absorption. The SAS Step Plus™ foot bed contains an extra soft midsection designed to provide additional support to the metatarsal area as well as a moisture control system which helps wick away moisture. It is anti-bacterial and anti-fungal.

- Everbounce™ cushioning material
- Enhanced arch and metatarsal support
- Cradles heel for extra stability
- Anti-fungal and anti-bacterial

shoe FACTORY & general STORE

SAN ANTONIO, TEXAS ■ EST. 1976

Turn-of-the-Century Charm

What is it that makes a shopping experience so memorable? One-of-a-kind atmosphere? Certainly. Unique finds? Almost always. Friendly service? Without a doubt. Luckily, you can find all of that and more at the SAS Shoe Factory and General Store.

Stepping into our SAS General Store is like stepping back in time. The antiques and Americana novelties help paint that picture, but it's the engaging and friendly staff that really takes you back to when old fashioned values were the rule.

You can enjoy penny candy from our charming candy shop or grab a scoop of your favorite ice cream flavor at our authentic ice cream parlor. Not to mention we're always popping up fresh popcorn for just 5¢ and our ice-cold soda is just 10¢.

So why all the nostalgia?

The SAS brand is about the standards of yesteryear. The artistry of handcraftsmanship. The timeless quality of genuine leather. Those standards are present in every pair of shoes we make. And you'll see that throughout the SAS General Store in our shoes and handbags. Our General Store is located right next door to our San Antonio factory, which offers regularly scheduled tours to the public.

At SAS we believe we have the highest quality standards in the industry. Therefore, many shoes that would be sold at first quality prices by other companies are sold at a discount at our General Store. You'll still find the superb quality and comfort you've come to expect from the SAS brand in these shoes, but small cosmetic flaws that don't pass our quality standards allow us to sell them on-site at the General Store at a discounted price.

The SAS Shoe Factory and General Store
is located at
101 New Laredo Hwy.
San Antonio, Texas 78211

Store Hours:

Monday-Friday 9:00am to 6:00pm
Saturday 9:00am to 5:00pm
Sunday closed.

Factory Tours:

Monday-Thursday
9:15am, 12:30pm & 2:05pm
Call us to make a reservation for a factory

San Antonio Shoemakers® | SASshoes.com | Customer Support (877) SAS-SHOE

A *little* PIECE OF HISTORY IN
SAN ANTONIO, TX

keep moving®

Keep Moving® is a wish San Antonio Shoemakers has for all customers, employees, family, and friends: keep moving comfortably, keep moving in life, keep moving in an effort to inspire others. It embodies the spirit of caring, a characteristic at the heart of SAS. Don't call it a motto. Call it a mission.

Keep MOVING COMFORTABLY

You can thank a lifelong friendship for the comfort and quality found in SAS shoes. Terry and Lew followed their dream to make the most comfortable shoes in the market. Their simple formula: fine leather, quality materials, and close attention to detail is what gave this company its start at becoming the worldwide brand it is today. With each pair of shoes that leaves one of two Texas factories, you'll feel the hard work and dedication of two ingenious founders, along with four decades of a family promise, right at your feet.

Keep MOVING TO INSPIRE

Co-founders Terry Armstrong and Lew Hayden were inspired to make a dream come true for their families and their unsuspecting customers. That same inspiration is taken a step further through community involvement and several philanthropic efforts. To carry out the mission, the SAS Comfort and Support Team was established to visit disaster-stricken areas to provide those in need with a comfortable pair of shoes to get back on their feet. This group of caring individuals travels to the site and fits victims with a brand new pair of shoes, but most importantly, shares a moment of fellowship. It doesn't stop there. The brand has also aligned with non-profit agencies, teaming together to bring awareness and resolve to problems affecting everyday people. One pair of shoes at a time is how SAS keeps moving to inspire and care for others.

Keep MOVING IN LIFE

The style of your life is of utmost importance at SAS. Because sometimes being comfortable isn't enough, a new collection of modern choices have been introduced to suit your lifestyle, and are poised to become the new American classics. Now, vibrant colors for women and polished styles for men are the norm, not the exception. Available in a wide range of sizes and widths, these handcrafted traditions are made to fit all.

A LETTER FROM OUR CEO

The story of the SAS family begins with its founders, Terry Armstrong and Lew Hayden. The two first met in Pittsfield, Maine, but their passion for making quality footwear led them to San Antonio, Texas. After working for a local shoe company, Terry and Lew struck out on their own.

With determination and the support of their families, the two pooled their resources to start their first factory in a corner of an unused aircraft hangar on the South Side of San Antonio. In 1976, San Antonio Shoemakers was born. They started small, with just 13 shoemakers and no marketing beyond word of mouth. The SAS reputation grew and became a name people could trust for comfortable, quality footwear.

This attitude of determination is what continues to set SAS apart. Today, SAS continues its dedication to quality and comfort, while expanding the brand to include dozens of new styles and colors. Now, SAS's line features everything from walking and athletic shoes to pumps, flats, sandals, and even new boots for women. The men's line has expanded to include walking and athletic wear to dress shoes. Every day, SAS finds a way to help you Keep Moving.®

-Nancy Richardson
